

Kaplan–Meier for Constipation by Study

Study + 1997 (n=735) + 2000 (n=1564) + 2001 (n=226) + 2004 (n=213)

Number at risk

A forest plot with four horizontal rows representing different studies. The x-axis at the bottom is labeled "Time (days)" and ranges from 0 to 3000. Each row contains 15 data points corresponding to time intervals of approximately 180 days each. The first study (red) has values: 727, 342, 271, 165, 142, 3, 2, 1, 1, 0, 0, 0, 0, 0, 0, 0. The second study (cyan) has values: 1543, 744, 601, 389, 354, 30, 10, 1, 1, 1, 1, 1, 1, 1, 1, 0, 0. The third study (teal) has values: 215, 14, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0. The fourth study (dark blue) has values: 206, 26, 2, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0.
